TOWN OF WILMINGTON

MASSACHUSETTS

BOARD OF SELECTMEN

1987 can be described as a year of reassessment for the Town of Wilmington. Several projects undertaken in 1987 required the Town to evaluate its present situation and to decide upon a direction to pursue for the future. These projects, many of which are on-going, will significantly effect the entire community. Consideration for establishing a Wilmington Municipal Electric Department, developing policies to encourage affordable housing, working on a proposal to improve the Burlington Avenue/Town Center area and participating in comprehensive strategic planning process all have major long-term implications for Wilmington.

Voters at the 1987 Annual Town Meeting instructed the Selectmen to investigate the feasibility of establishing a municipal light department. The Town can pursue one of three options: Remain with Reading Municipal Light; buy wholesale power from Reading Light; or create a Wilmington Municipal Electric Department and buy wholesale from another source. Cost figures have been developed for each of the options. Selectmen discussed with Reading Light representatives, significant areas of disagreement. Much work remains to be done on this complex issue.

In November, Wilmington was designated a Housing Partnership Community by the Executive Office of Communities and Development (EOCD). This designation enables the Town to gain access to state funds. Such funds will assist our efforts to increase the amount of affordable housing in Wilmington. The Affordable Housing Task Force has been meeting to develop an affordable housing plan. The anticipated time frame for completing this plan is May, 1988.

Selectmen met with the Wilmington Redevelopment Authority and their consultant Wallace Floyd Associates, Inc. of Boston to consider proposals for the Burlington Avenue/Town Center project. Several issues were raised regarding traffic patterns/flows and the impact on commercial property on Main Street and Church Street. Currently the design is preliminary and will require further review.

In January, the Town was awarded a $9,000 grant from the Executive Office of Communities and Development (EOCD) to engage in comprehensive strategic planning process. While this type of planning is frequently done in the private sector, Wilmington will serve as a model for strategic planning in the public sector. The Selectmen will work with the Town boards, committees and departments to assess the full range of municipal services currently available. Based upon that assessment, decisions will be made regarding how those services need to be altered to better serve the community for the year 2000.

Public hearings were conducted by the Massachusetts Department of Public Works (MDPW) on proposed construction of the Eames Street Bridge and the Butters Row Bridge. The Board supports the Eames Street Bridge reconstruction as necessary to the health and safety of residents and industry in that area. Selectmen requested that the MDPW indefinitly postpone work on the Butters Row Bridge due to the potential impacts it may have on the neighborhood.

The creation of a traffic division within the Wilmington Police Department is being proposed in the FY-89 Budget to deal with the burgeoning traffic issues. The Board of Selectmen strongly believe that this unit is needed to mitigate the traffic tie-ups on our local streets.

Continental Cablevision took over cable service from Greater Boston Cable Corporation. The Selectmen authorized the transfer of the cable license. The Board expects to see expanded service because of the increased number of channels and a strong commitment to serving the community by Continental.

Proposals for design options for renovation or new construction of a police station and fire station and/or sub-station, and proposals for a land use survey of the Town Common area (including a new Town Hall) are being reviewed by the Permanent Building Committee. These surveys will present the Town with an excellent opportunity to design police and fire facilities that meet our needs both today and in the future.

The Fourth of July Committee has had numerous discussions with several local organizations and it appears that the Fourth of July Carnival will continue in 1988. This event has quickly grown to be a popular attraction for many families. The Board is pleased that the carnival will continue.

The Town has been forced to defend its interests several times during the year. Municipal officials have risen to the occasion while defending the Town's tax assessments before the Appellate Tax Board, defending Wilmington's position regarding the Wilmington Arboretum Apartments project before the state Housing Appeals Committee and fighting a proposal by the Massachusetts Water Resources Authority (MWRA) to locate a sludge composting/combusting facility in Wilmington. The Selectmen acknowledge the outstanding work of town officials and residents on these very important issues.

The Selectmen were saddened by the passing of long-time School Committee member Mitchell J. Spiris, Edward Rideout, Chairman, Wilmington Community Television, Inc., Patrolman Joseph S. Morgan, Town Accountant Edward F. Walsh and Sealer of Weights and Measures Martin P. Farrell. The Board is thankful for their dedication to the Town of Wilmington.

There are several new faces working for the Town: Michael N. Matt was appointed Executive Director of the Wilmington Redevelopment Authority; Elizabeth E. Sabounjian assumed the role of Conservation Administrator in January of 1987; Michael Morris became the Town Accountant in July; Jeffrey M. Hull is the new Assistant Town Manager; and Harold R. Gillam was appointed Town Engineer in January of 1988.

The Board anticipates an active year ahead. Many of the issues outlined above will remain before us in 1988. Our ability to deal effectively with the challenges of today will go far towards shaping the Town of Wilmington of the year 2000.

OFFICE OF THE
TOWN MANAGER

AREA CODE 617
658-3311

To the Honorable Board of Selectmen and Citizens of Wilmington:

> "In America, not only do municipal bodies exist, but they are kept alive and supported by Town spirit. The Township of New England possesses two advantages, which strongly excite the interest of mankind - namely, independents and authority."

This quote, taken from Democracy in America, written by Alexis DeToqueville, reflects the importance of the Town government in New England. The independence and the authority of the Town Meeting played an important role in Colonial America. Today the Town Meeting plays just as important a role because the range of independence and authority given a Town Meeting engenders a spirit of excitement in those who attend. He also wrote about Town Spirit. This feeling is alive in Wilmington today. It is captured in the attendance at Town Meetings, participation at municipal events and in the large number of citizens who volunteer to serve on boards, committees, commissions and special task forces of the Town. In essence, the Town Spirit that characterizes Wilmington is something of which we can be very proud.

In 1987, three Town Meetings were held. At the Annual Town Meeting, the voters raised and appropriated a Town Budget of $30,000,000. Included in that was $125,000 for engineering, legal and technical assistance to the Board of Selectmen for the creation of a Wilmington Municipal Electric Department. Also, the Board took a second vote to establish a municipal electric plant in accordance with MGL Ch. 164, $50,000 was appropriated for the preliminary architectural and engineering services necessary for a Police Station renovation and addition, Fire Department sub-station and the permanent relocation of the Town Hall in the vicinity of the Town Common area, the American Legion exchanged a parcel of land at the intersection of Middlesex and Adams Streets for the land that the Town owns in South Wilmington off Main Street, the Moderator's term was extended from one year to three years, and no action was taken on the petition warrant article to designate scenic roads in Wilmington.

There was a Special Town Meeting held the same day as the Annual in which the Town voted to exempt three types of transfers from the moratorium on the sale of Town-owned land. In September, there were two Special Town Meetings held on the same evening at which time the voters approved $50,000 appropriation to hire a housing consultant to provide the technical assistance necessary for the development of a strategic housing plan for the Community.

The spirited Town Meetings held in 1987 provided the resources to accomplish the following highlights:

The Board of Selectmen worked diligently during the year on the subject of separation from the Reading Municipal Light Department and the creation of a Wilmington Municipal Electric Department. This work culminated with an offer to purchase the Reading Municipal Light Department plant and property within the Town from the Reading Municipal Light Department in October, 1987 for the sum of $4,669,000 based on the value of the electric distribution plant arrived at by the Town's independent consultant. The Reading Municipal Light Board countered with a three option proposal: Wilmington not leaving, Wilmington leaving the system and purchasing wholesale power from Reading Municipal Light Department at total estimated cost of $14.9M, and Wilmington leaving the system at the total estimated cost of $52M. In December, the Boards had a face-to-face meeting at which time various options were enumerated. They are:

- a. Representation on the Reading Municipal Light Board;
- b. in lieu of tax payments;
- c. the Street Light Account; and
- d. severance from the RMLD system.

The Boards have agreed to continue meeting and to negotiate locally prior to having the case heard by the Department of Public Utilities. In October the Board filed a petition with the Massachusetts Department of Public Utilities which asked for a decision on a number of issues including the value of the Reading Municipal Light Department plant and the severance damages if Wilmington were to separate.

The Town's Affordable Housing Task Force had a very active year, addressing the issues of providing housing opportunities for low and moderate income families in our community. The sum of $50,000 was raised at the September Special Town Meeting. Community Opportunities Group from Boston was hired to be the Town's housing consultant and to do a strategic housing plan. In November, the Town was designated a Housing Partnership Community which will enable the Town to submit project applications to the Home Ownership Opportunity Program, to apply for Municipal Advance Program grants and to apply for loans through non-profit organizations to promote and implement housing development proposals. The Town hired two Planning Interns in June in order to catalog and evaluate the Town-owned land as part of the moratorium that was approved by the Town Meeting in 1985. In part, the purpose of this project is to arrive at a short list of possible affordable housing sites. As the year ended the cataloging phase of the project was completed and now the major thrust was placed in the area of the evaluation of the sites with particular emphasis to those sites which could be used for affordable housing.

In January, the Board of Selectmen had a special meeting with Commissioner Tierney of the Massachusetts Department of Public Works, our state Senator and Representatives and an number of Town officials regarding the Town Center Project. At this meeting there was a frank and open discussion about the future of the Wilmington Town Center. After much discussion and a tour of the site, it was decided to hold the 25% Design Public Hearing in March. After the public hearing, the Board requested that the project be placed on hold for a period of six-months and during which time the Wilmington Redevelopment Authority be allowed to do a feasibility study of the area with input from the Town, the residents and business owners. In May, the Board again met with Commissioner Tierney and this six month request was granted with no guarantees that the Commonwealth would fund the alternative design the Wilmington Redevelopment Authority proposed. By the end of the year, the Wilmington Redevelopment Authority had hired the consulting firm of Bruce Campbell & Assoc. and Wallace, Floyd & Assoc. to undertake the feasibility study and report back to the Board of Selectmen in early 1988.

In this brief letter, I have tried to report on the major projects of 1987. It would be impossible for me to leave this effort without acknowledging the excellent cooperation and support that I have received from the Board of Selectmen and other Town boards, committees and commissions. The Town department heads and employees served with great diligence and dedication during the year. It is through the team spirit and cooperation of these groups and individuals that 1987 can be considered a success.

The Town Manager form of government which is embodied in the Wilmington Town Charter, binds together the independence and the authority common to many New England Towns and focuses it in the directions and the priorities set by the Town Meeting. This is accomplished by a tremendous amount of cooperation and enthusiasm which can be called Town Spirit that Alexis DeToqueville wrote about so many years ago. It is this Town Spirit that brings the Town Charter to life and focuses this tremendous amount of independence and authority in directions of great municipal concern. By working together, we are able to keep alive the spirit of Wilmington and in doing so, we are bettering the citizens of our Community.

In order to continue this Town Spirit, please vote in the Annual Town Election on April 16, 1988 and attend the Annual Town Meeting on April 23, 1988. Finally, I would like to take this opportunity to thank the residents of Wilmington for the support and cooperation that was offered to me during 1987.

Respectfully submitted,

Reginald S. Stapczynski

Other Services:

By virtue of her office, the Town Clerk is clerk to the Board of Registrars.
In this capacity, she has met with the Board of Registrars on a regular monthly meeting night, kept the minutes of same up to date, supervised the Annual Town Census by mail, kept the voting list up-to-date, and registered voters during the regular office hours of the Town Clerk. She also meets with the Board for Special evening sessions to register voters and to certify nomination papers for candidates.

Board of Registrars

In accordance with Section 1, Chapter 3 of the Town By-Laws, meetings of the Board of Registrars were held on the second Wednesday of each month for the registration of voters and to conduct business. Under Chapter 616 of the Acts of 1958, these meetings were open to the public and press, and it is so posted in the Town Hall.

The Board held registration periods as are required by law for the Annual Town Election and Town Meeting of April 18 and 25, the Special Town Meetings of April 25 and September 28, all in 1987.

The Town Clerk attended most of the Conferences in order to keep up with the changing election laws, and other changes and updates pertaining to her office.

The 1987 calendar year ended up with 9,413 registered voters.

The Board of Registrars wants to thank all citizens of the Town who returned their CENSUS forms without delay. A true census is an asset to the Town.

The Annual Census is essential in that it determines the Jury lists each year and it determines many factors in distribution of state and federal funds. This year the redistricting of the 1985 State Census was implemented on January 1. The Town's final census count was 17,513.

As required by law, inspections of all schools, public buildings, and all flammable storage were made by Deputy Chief Daniel Stewart.

The following personnel changes were made: Retired, Lt. Silverius Blonigen; promoted to the rank of Lieutenant, Joseph McMahon and Edmund Corcoran; appointed to the Fire Department, Robert Vassallo and Michael Peterson.

The Fire Alarm division inspected and tested all boxes. All repairs were made to the system during the snowstorm and after. All circuits functioned properly. Fire Alarm had 120 changeovers. Three new Master Boxes installed in the Municipal System. Extended 5,320 feet of RC wire. Installed 10,500 feet of fig. 8 wire from Fire Station to North Intermediate School. Three boxes were repaired. Fire Alarm is in the process of getting new wire for replacing older circuits. Inspected three new buildings for Fire Alarm connection to the Municipal System.

I wish to extend my thanks to the staff and members of the Wilmington Fire Department for their support, loyalty and dedication to duty during 1987.

Department of Public Works

In accordance with the By-Laws of the Town of Wilmington, I hereby respectfully submit the Annual Report on the activities of the five divisions of the Department of Public Works for the year 1986.

The Engineering Department has been reorganized and is now a division of the Department of Public Works. With this reorganization, we now have six (6) divisions: Highway, Tree, Cemetery, Parks and Grounds, Engineering and Rubbish Collection/Disposal.

HIGHWAY DIVISION 658-4481

All regular highway maintenance work was carried out during the year, such as cleaning catch basins, installing street and warning signs, patching streets, cutting brush along our roadsides, repairing broken curbing, grading back roads, sweeping streets, etc.

Chapter 90 Construction

The reconstruction of Aldrich Road is underway with the installation of drainage from Shawsheen Avenue to Forest Street.

Chapters 811 and 637 along with our Hot Top Program

The following streets were upgraded with bituminous concrete: Roberts Road, Melody Lane, Arlene Avenue, Barbara Avenue, Franklin Avenue, Adelaide Street, Wilton Drive, Harold Avenue, Catherine Avenue, Dorothy Avenue, Ballardvale Street, Grace Drive, Reed Street, Anthony Avenue, Ella Avenue, Wildwood Street.

Drainage

Drainage systems were installed, repaired, extended and hot top was applied to eliminate water problems, at the following locations: Glen Road, Woburn Street, Lawrence Street, Wicks Circle, West Street, Westdale Avenue, Lang Street, Chestnut Street, Faulkner Avenue and Sheridan Road.

Snow & Ice

Snow removal and sanding is a very expensive and major function of the Department of Public Works. We had 52" of snow for the year.

The Town of Wilminton received a State funded salt storage shed. This shed will prove to be a benefit to our community in the protection of our drinking water. I would like to take this opportunity to thank everyone who assisted the Department of Public Works in obtaining the salt storage shed, expecially State Representative, James R. Miceli.

Sidewalks

In conjunction with Colonial Gas a sidewalk was constructed on Salem Street from the Tewksbury line to Middlesex Avenue. This project is approximately 80% completed.

TREE DIVISION 658-2809

The Tree Division carried out all regular maintenance such as trimming, cutting and removing trees. We had to remove 91 roadside trees that were dead or interfered with public safety. Hornet nests were removed upon request from residents. The Town Common was illuminated with a fine display of Christmas lights again this year.

Insect Pest Control

Spraying was performed to control Gypsy Moth, Elm Leaf Beetles, Ticks, Cinch Bugs, Japanese Beetles, Pine Saw Flies, Eastern Tent Caterpillars and the Fall Web Worm. Spraying was also done to control the spread of poison ivy.

Mosquito Control

Mosquito Control was performed between the hours of 8:00 p.m. and midnight with a U.L.V. Generator. Larvicide was administered to all trapped water holes.

Dutch Elm Disease

Samples of Elm Trees, believed to be diseased, were sent to the University of Massachusetts, Amherst, MA. As a result we removed 21 diseased trees.

CEMETERY DIVISION 658-3901

All regular maintenance was carried out throughout the year, such as mowing grass, weeding, trimming, winter graves were loamed and seeded, markers were reset and foundations for monuments were poured, etc.

Burials		Receipts	
Died in Wilmington	13	Interments	$15,145.00
Died elsewhere	59	Foundations for monuments	2,802.12
Non-residents	42	Affidavits	8.00
Cremations	11	Deeds	49.00
TOTALS	125		$18,004.12

Reserve		Trust Fund	
Sale of Lots	$12,438.00	Perpetual Care	$10,025.00
TOTAL	$40,467.12		

PARKS & GROUNDS 658-4481

All regular maintenance was carried out throughout the year such as cutting grass, trimming shrubs, marking ballfields for baseball, softball, field hockey and soccer, and fertilized all fields, etc.

The following are some of the highlights:

A new playground was constructed at the site of the old Walker School in memory of Jason Stevenson.

Installed park benches at the Rotary Park donated by the Rotary Club.

Assisted the Pop Warner with the installation of lights at the Glen Road field.

Installed a drinking fountain on the Town Common near the gazebo.

Installed new flagpoles at the Police Station and Fire Station.

Hot topped parking areas at the North Intermediate School and Wildwood Street School.

Installed guardrail around parking lot as Silver Lake.

Finished the upgrading of the tennis court at the High School with the installation of hot top, new chain link fence and the painting of the courts.

Sealed and painted the High School track.

ENGINEERING DIVISION 658-4499

The Engineering Division was without the services of a Town Engineer and a Senior Civil Engineer for the full year. Also, Peter Liebermann, a Senior Civil Engineer, resigned his position in June. We wish him well.

An engineering firm assisted this Division, Town Departments, Boards and Commissins with engineering related projects such as, but not limited to:

Department of Public Works

Reconstruction of Aldrich Road
Cemetery Expansion

Planning Board

Subdivisions

Assessor

Up-dating maps

The Town has hired Harold R. Gillam as Town Engineer. He will begin work on January 4, 1988.

RUBBISH COLLECTION AND DISPOSAL 658-4481

The contract for rubbish collection and disposal is a function of the Department of Public Works. If taxpayers have any questions or complaints, please call.

In concluding my report, I would like to take this opportunity to thank the Police Department for keeping us informed during the winter months of the road conditions, and all the various departments for their cooperation during the year. I would also like to thank the Town Manager and Board of Selectmen for their support throughout the year. To the dedicated employees of the Department of Public Works who made 1987 a very productive year, my sincere thanks and appreciation.

Emergency Management

The Wilmington Emergency Management Agency (WEMA), housed in the basement of the "Old Town Hall", 219 Middlesex Avenue, is a viable branch of your local government. The goals of W.E.M.A. are to supply needed services to the citizens of Wilmington. This would cover a wide spectrum of needs, from furnishing personnel and radios to assist at check points for the annual Walk-A-Thon, to providing personnel and emergency communications during hurricane Gloria and the past industrial incident in South Wilmington as well as supplying divers to the town for investigative purposes at the past incident at Silver Lake.

At the present time, the Agency has a very active and noted Radio Communications group comprised of sixteen (16) F.C.C. licensed radio operators. This radio communications team is supervised by Doug Chisholm and Mort Grant. The base station for the agency is located at the N.Y.N.E.X. tower at the junction of Routes 129 and 38. The antenna mounted on top of the tower is a total of 183 feet above ground level. Subsequently, the Wilmington Emergency Management Agency has a communications capability noted as equal to if not superior to that of the 85 communities which comprise Area-1 Massachusetts Civil Defense. Area-1 is divided into sectors. Wilmington is in Sector 1-D, made up of a total of 19 communities. As of November 1, 1986, the Wilmington Emergency Management Agency is now the net control, handling all emergency communications between Area-1 and the Sector 1-D communities.

Another element of the agency is the Dive Team, under the supervision of William Gable and Robert Larivee. The Dive Team at present has three (3) fully equipped divers that, as previously mentioned, have been utilized by the Town.

The Rescue Team, under the supervision of Jack Morrison and Steven Larivee, is in the process of being reorganized and updated in terms of equipment needed. I am confident that under the direction of Jack and Steve, the Rescue Team will develop into as viable a unit as the Communications and the Dive Team.

The Wilmington Emergency Management Agency extends its thanks to Mort Grant, who has moved to Maine for his many years of service to the Town of Wilmington. He will be missed.

The Wilmington Emergency Management Agency extends its thanks and appreciation to all who have supported its growth and development. It continues to be my sincere privilege to serve the Town of Wilmington as the Coordinator of the Emergency Management Agency.

Police Department

In accordance with the By-Laws of the Town of Wilmington, I hereby respectfully submit the Annual Report on the activities of the Wilmington Police Department for the year of 1987.

The enclosed statistical report represents the total for all crimes, complaints and incidents reported during the year 1987; and, for the most part the corresponding enforcement efforts of the Wilmington Police Department. During 1987 the total number of complaints and incidents reported to the police department decreased by 8.8% from 14,283 incidents in 1986 to 13,029 during 1987. For the most part these decreases were in the areas of minor crimes and service related incidents. Several of the serious crime categories decreased significantly during 1987. Breaking and Entering into homes and buildings were reduced by 12% from 95 incidents in 1986 to 85 during 1987. This follows a 20% reduction in 1986 and a 42% decrease in these crimes during 1985. Totals for Assaults and Batteries were down again by 42% from 19 in 1986 to 11 in 1987. This follows a 34% decrease in these crimes during 1986. Motor vehicles stolen in Wilmington decreased by 14% from 86 in 1986 to 74 in 1987. Due to the reductions in the major crime categories, the Uniform Crime Reports compiled by the State and Federal Governments will again show a reduction in the crime rates for the Town of Wilmington during 1987. The 1986 Uniform Crime Reports which were released in December, 1987 showed a 33% reduction in the crime rate for the Town of Wilmington. The 1986 crime rate of 20.1 index crimes per 1,000 residence is based upon a total of 355 index crimes, 10 violent crimes and 345 property crimes. This follows a reduction of 23% in the crime rate for 1985.

Motor Vehicle Accidents and Traffic congestion continues to be a serious Community problem; and, during 1987 the police department experienced a slight increase in the motor vehicle accident rate. During 1987 motor vehicle accidents increased by 50 accidents from 950 accidents in 1986 to 1,000 during 1987. The police deparment continued to place a high priority on the enforcement of motor vehicle violations during 1987. During 1987 the department cited 4,239 motor vehicle Violations. The following are the totals for some of the major areas of concern: Speeding; violations, 2,022; operators license violation, 302; and, miscellaneous violations, 1,651. Arrests for operating a motor vehicle under the influence of alcohol were increased by 12 from 102 in 1986 to 114 during 1987.

Arrest for crimes other than motor vehicle offenses during 1987 totaled 711. During 1987 the Police Department continued to place a high priority on alcohol and drug related offenses. As a result, arrest for liquor law violations totaled 68 and there was a total of 64 narcotics arrest. The department placed a total of 166 persons under Protective Custody. A total of 1,100 persons were taken into custody by the police department during 1987. As a result of the increased enforcement efforts by the department. The fine monies returned to the Town of Wilmington from the Woburn District Court increased from $171,706 in 1986 to $211,758 during 1987.

The department makes note of personnel changes during 1987. Patrolman Joseph S. Morgan, an 18-year veteran of the Police Department was fatally injured in an automobile accident in New Durham, New Hampshire. The passing of Officer Morgan has left a void not only in the department, but even more so in the hearts of his brother officers and all who knew him. Joe will be long remembered as a "Gentleman" and as a "Friend". Patrolman John A. Ritchie retired from the Police Department after serving 31 years as a police officer for the Town of Wilmington. He will be missed greatly by the members of the Police Department and the community as a whole. John, we all wish you health and hapiness in your retirement. Four new officers were appointed to the police department during 1987. They were Officers Lawrence M. Juergens, Paul W. Jepson, David L. Axelrod and Steven C. Stokes.

In closing this report, I want to thank the Town Manager, the Board of Selectmen, all other Boards and Committees; and, all department heads and their workers for their support and cooperation during 1987. A special note of thanks is in order for Superintendent Robert P. Palmer and the members of the D.P.W. for their assistance in building the department's new outdoor firearms range.

A special note of thanks to the staff and members of the Wilmington Police Department, for without their support and continuing efforts none of our accomplishments could have been realized.

Planning Board

Serving the Town as one of the six agencies under the "Community Development" department, the Planning Board members with the assistance of its Planning Coordinator had a very busy 1987.

The Planning Board office is located in the Town Hall sharing room 6 with the Conservation Commission. Office hours are Monday - Friday from 8:30 a.m. to 4:30 p.m., with the Planning Coordinator, Sandra L. Murphy, available to assist the public with general inquiries and scheduling appointments for the Board's regular weekly Tuesday evening meetings.

SUBDIVISION CONTROL:

Under the authority vested in the Planning Board of the Town of Wilmington by Section 81-Q of Chapter 41 of the General Laws, the Board reviewed the following subdivision plans:

Forty-seven (47) plans believed not to require approval were submitted: The Planning Board found that 41 plans did not require approval under the Subdivision Control Law and therefore were endorsed; 2 plans were found to require approval and therefore were denied for cause; 4 plans were withdrawn without prejudice.

The Planning Board collected a total of $21,946.57 in the calendar year of 1987 in filing fees from the submission of the following subdivision plans. This fee was turned over to the General Fund Account. The status of these subdivisions are as follows:

PARKING SITE PLAN REVIEW
The Board reviewed 19 applications for Site Plan Review referred to the Planning Board for its respective review and recommendation to the Town Engineer.

PLANNING BOARD REPRESENTATION AT THE BOARD OF APPEALS
William G. Hooper, Jr., acting as the Planning Board's representative at the Board of Appeals hearings, offered recommendations and suggestions on many cases requesting variances, special permits and official map variances, including the Comprehensive Special permit applications for Wilmington Arboretum Development, and Shawsheen River Estates.

SPECIAL STUDIES
Mandated by the vote of Special Town Meeting of April 27, 1985 to complete inventory and evaluation of the 670 town-owned parcels of land for a report to the Annual Town Meeting of 1988, the Planning Board hired two Planning Interns, Anne Warner and Donald Nadeau. Through funding of a Strategic Planning Grant, the Town retained Mr. Nadeau to continue with site inspection and the identification of potentially suitable sites for Affordable Housing. Our special thanks to Peter DeRoeve, Business Manager of the School Department for the loan of a computer during the summer months used in doing the study.

Carole Hamilton, David Clark and Sandra Murphy continued to represent the Planning Board at the Affordable Housing Task Force Meetings.

The Board wishes to thank Virginia Lemos for her assistance in recording meetings of the Board and it expresses its appreciation to Fay, Spofford and Thorndike, Inc., the Consultant Engineering Firm hired by the Town who gave technical assistance to the Board throughout the year.

Board of Health

The Board of Health consists of three members appointed by the Town Manager. Serving on the Board throughout 1987 were: Dr. James Ficociello, D.D.S., Joseph Paglia, Milton Calder. The Director of Public Health is Gregory P. Erickson R.S., C.H.O., and the Public Health nurse is Abbie Radley, R.N., C.

Highlights of 1987:

Much work was done in the area of hazardous materials in the Town of Wilmington by the Town's Hazardous Materials consultant, HMM Associates. The Director of Public Health is the chairman of the Local Emergency Planning Committe (LEPC), appointed by the Manager under the recent SARA, Title III, federal regulations.

The Board of Health began a policy of identifying and removing junk motor vehicles throughout the Town.

An Aids Education Presentation was held at the North Intermediate School for the public. The speaker was Dr. Peter Spitzer. This was a cooperative effort of the Board of Health and the Wilmignton Public Schools.

A feasibility study for the fluorination of town water was done. The Board will be continuing this investigation into 1988 by holding public hearings and meetings.

The annual town-wide flu clinic was held on Sunday, October 18, 1987. It was well attended.

The total number of flu shots given was 672 which included: Town-wide clinic, senior citizen clinics at the Buzzell Center, industry, home visits, town employees, school employees. Pneumonia shots totaled 61.

The annual rabies clinic was held. A total of 180 dogs were vaccinated.

In February and March for a total of two weeks the Public Health Nurse instructed and supervised a student intern from Shawsheen Tech studying Medical Technology. This was a new program initiated by the school for sending students into varied specialty working areas to broaden their education.

The DT60 Kodak Analyzer machine was donated to the Town this year by the WTEA and the senior citizens arts and crafts work program. This machine is capable of doing a variety of tests including cholesterol, triglycerides and glucose. High levels of these substances in the blood place people at high risk for cardiovascular diseases. A total of 104 persons since July have taken advantages of this service. The results of these tests have helped people to take the necessary steps to lower their risks for these diseases.

This year the Public Health Nurse passed the American Nurses' Association exam for certificaton in Gerontological Nursing. The ANA certification examinations are objective tests that cover knowledge, understanding, and application of professional nursing theory and practice. The examinations are developed by ANA committees of examiners composed of experts representative of the various areas of certification.

The Director was elected to a one year term as Secretary in the Massachusetts Health Officers Association, and was appointed by Governor Dukakis to the state SARA, Title III Advisory Council.

Historical Commission

Renewed memberships to the National Trust for Historic Preservation and the Massachusetts Historic Society enabled our members to attend various seminars throughout the State. One of which was an all-day seminar held at Harvard University attended by our Chairperson, Dorothy Lafionatis.

The Harnden Tavern now has bronze plaques identifying various rooms. The upper and lower back hallways, stairwell, and the summer keeping room were redecorated. New to the Tavern is a glass case in which Larz Neilson's arrowhead collection is displayed, a quilt, an original scroll painting done by the late Ethel Williams, a beehive oven door from the Hartwell-Richardson house, a pewter ink well and quills, a Colonial yarn winder, and an antique hanging light fixture. Keeping energy conservation in mind, Dorothy McKinnon hand crafted forty wind breakers for the window sills.

The open house at the Harnden Tavern continued each first Sunday of the month. In conjunction with these open houses, the Friends of the Harnden Tavern held successful Strawberry, Harvest and Christmas socials. We were proud to have one of our Town Historians, Capt. Larz Neilson, give a very informative lecture and display of his arrowhead collection; many of which were found in Wilmington. In addition, the Tavern hosted canal lock keeper from England who showed slides and lectured about canals in his country.

The Historical Commission continues to place plaques on historic houses.

A historic marker, given by the Middlesex Canal Commission, has been placed on the Butters Row section of the Canal.

Recognizing the importance of our two little red schoolhouses, we are grateful to the Town for maintaining them.

New members to the Commission are Carolyn Harris and Jean Rowe.

Public Buildings Department

The circulation desks at the Wilmington Memorial Library were redesigned and completely rebuilt.

The new telecommunications system at the Fire Station was installed and is working well.

In February, Industrial Arts machinery at the Swain School was disconnected in anticipation of moving the equipment to the new High School shops.

The High School gymnasium was wired for the public address system used at the Town Meetings.

Voting machines were programmed at the polls, set up at the Town Hall and Wildwood Street School, for the Town Elections.

Additional lighting and electrical service was installed on the Town Common.

The Selectmen's Room at the Town Hall was renovated with new paneling and shelving.

New computer rooms at the Shawsheen Street School, Woburn Street School and West Intermediate School were built.

Fire damaged the Public Buildings Department building in September. The damage has been repaired.

Vandal alarm systems were installed at the Wildwood Street and North Intermediate Schools.

The West School and the South School were painted and new front doors installed.

Office space renovations at the Town Hall provided space for the Assistant Town Manager and the Veterans' Agent.

New ceilings were installed in the Shawsheen Street School and West Intermediate School cafeterias.

Remodeling work at the Fire Station was started and will continue into 1988.

New fuel tanks were installed at the Highway Garage, Woburn Street School and the Wildwood Street School.

Marilyn Chamberlin retired in 1987. All of us in the Public Buildings Department extend best wishes for a happy retirement.

To those department heads and employees that assisted the Public Buildings Department during 1987, thank you. Your assistance is most appreciated.

Carter Lecture Fund

The Orient Express came to Wilmington on April 29, 1987. From 8:15 to 10:30 Miss Kathleen Dusek took us from Paris to Istanbul. It was a pleasure to have the opportunity to travel in such luxury and to see so much of Europe. We hope to formalize plans soon to present a program in 1988.

Recreation Department

Wilmington's Recreation Department continued to provide a wide variety of leisure time activities for local citizens during 1987.

Although our department is relatively small, with only one full-time employee, it represents the second largest industry in the nation. In fact, Americans spend about 12 percent of their personal income on recreation.

The Recreation Commission consists of five volunteer citizens appointed by the Town Manager. This board functions in a policy making and advisory capacity to the director.

The Recreation Commission and Director keep in mind the following departmental objectives as they plan and conduct recreation programs throughout the year:

To provide opportunities for self expression,
To develop a sense of personal worth,
To provide activities that allow for personal achievement and accomplishment,
To provide activities that are fun and enjoyable,
To provide physical activities which are new and different, offering a certain amount of challenge to participants,
To teach skills in various activities that will have carry-over value in later life and
To provide a healthful and diversified program of recreation activities in an attempt to meet the needs and interests of the people being served.

Our total funding comes form a variety of sources. User fees and donations heavily supplement the town-funded budget which was decimated by the effects of Prop. 2 1/2 several years ago. Volunteers always play a key role in providing two dollars worth of service for every dollar spent. We receive much help from local clubs and organizations. Some of these invaluable contributors are: Rotary, Kiwanis Club, Lions Club, Police Association, Sons of Italy, Elks, Camp 40 Acres, Special Needs PAC, Custodial Union, Chamber of Commerce and Knights of Columbus. Along with the support we get from the above is the assistance given from such civic minded businesses as: Ski Haus, Elia's, Compugraphic, Massbank for Savings, Charles River, F & R Auto Supply, Aamco Transmissions, Rocco's, Dunkin Donuts, Town Crier, McDonalds, Realty World, Analog, Koch Membrane, Polaroid, Avco, Stelios, BayBank and Spinelli Insurance.

The Recreation Department is involved, in varying degrees, with many recreation-oriented projects and groups. In this nature we serve as a quasi-consulting agency. We also loan equipment to families and groups of all types for various functions.

Our basic programs are: Santa's Workshop, Horribles Parade, Special Kids Christmas Party, Christmas Shopping in New York City, spring trip to New York City, Basketball League, Men's Basketball, Men's Gym, Swimming Lessons, Swim-A-Cross, CPR, First Aid, Ski Lessons, Punt Pass & Kick Contest, Gymnastics, Ladies Fitness, Cinema Discounts, Florida Discounts, Other Commercial Recreation Enterprise Discount Coupons, Sesame Street Live at the Boston Garden, Special Needs Gym Program, Boat Cruise to Provincetown, Florida Discounts, T-Ball, Group trip to Disney World, Easter Egg Hunts, Circus trip to Boston Garden, Bruins tickets, Discount shopping spree to Kittery, Maine, Topsfield Fair discount tickets, Playground, Tiny Tots, Special Needs Day Camp, Public Beach Supervision, Canoe Rental and Clinic, Crane's Beach Day, Teen Trips to Hampton Beach, Tennis Lessons, Concerts on the Common, Red Sox Trips, Sport Clinics, Fishing Derby, Self Defense, Co-ed Volley Ball, Disney on Ice Trip, Cross Country Ski Clinic, Free Loan of Fishing and Canoeing VCR Tapes, Police Association Beach Day, Newport, RI trip, Easter Coloring Contest, Sale of Entertainment Discount Guides, Disney Trip Orientation, Little Red Wagon Drama Show, Lifeguard training, Rafting, Special Needs Rodeo and Circus Trips, Atlantic City Trip, Teen Ski Trip to NH, Mystery Trip to Giordano's and Tour of Olympic and World Champions - Figure Skating Show at Boston Garden.

Other groups that offer leisure type programs in Wilmington are: Little League, Pony League, Youth Hockey, Figure Skating Club, Men's Softball, Square Dancing, Youth Soccer, Tennis Club, July 4th Committee, Community Schools, Council on Aging, Council for the Arts, Scouts, Campfire and the BMX Bike Club. Schools and churches round out the active recreation picture.

There is an obvious lack of commercial recreation facilities in Wilmington such as bowling centers and movie theatres. The town also lacks youth-serving agencies such as YMCA's, YWCA's, Boys and Girls Clubs. The addition of the new Rink is a great plus. This void stresses the importance for town support of various leisure-oriented programs.

Wilmington does have many fine natural areas where outdoor activities may be pursued. Silver Lake is our most important such asset offering a variety of aquatic sports from swimming, canoeing and sailing to skating and fishing in the winter months. The Town Park hill provides an excellent area for sledding during the long winter. The large number of Conservation and Water department lands provide an extremely healthful environment for man and animal alike. These protected properties allow for passive recreation such as nature study or bird watching.

Camp 40 Acres is used by various youth and scouting groups and is a semi-private wooded facility. We use this area for our summer special needs day camp. The Town Forest, Town Park, Common with gazebo, school playgrounds, and an abundance of tennis courts - many with lights are available to all. The fitness trail at the Regional Health Center is a popular facility, too.

The outdoor recreation area at Glen Road, Town Hall is being developed as a family area. New and modern playground equipment was installed in 1985. School grounds also are being improved steadily throughout the Town. A memorial "play area" in memory of Jason Stephenson was developed within the Rotary Park confines. Pop Warner spearheaded an improvement project for the Glen Road Recreation Area. Volunteers are raising funds for a timber form type of play area to be built at the Shawsheen School.

The Recreation Director and Commission thank those many individuals and groups who help produce a final recreation product which is a model to many surrounding communities.

Veterans' Agent

The Wilmington Veterans' Agent respectfully submits his Annual Report for the year 1987. Paul A. Farrell, Veterans' Agent, and the limited part-time services of Diane Peters, as clerk.

Veterans' Services is governed by the General Law of Massachusetts Chapter 115 as amended with strict compliance to this Chapter, the rules and policies of which govern the disbursement of aid.

Benefits are for the needy Veteran and his immediate family who have been subject to unforeseen needs. Final approval of benefits comes from the Commissioner of Veterans' Services, Boston, Massachusetts.

The balance for first six months of 1987 from previous appropriations was $3,992.99, total available funds beginning July 1, 1987 was $13,000, total expended for aid to Veterans and their families for the entire year was $8,993.99.

Total reimbursement for 1987 from settled assignments and/or accident cases authorized by the Commissioner's Office was $5,401.50. The total amount has been turned over to the Town Treasurer and the Commonwealth has been notified so adjustments of any monies can be made before State reimbursement to the Town.

This department deals continuously with new and changing benefits and/or laws pertaining to Social Security, V.A. Disability, pension, compensations and G.I. education or on-the-job training; plus, aiding applicants for S.S.I., unemployment due to strikes, shutdowns and lack of work, always has an impact of expenditures. Case load varies from time to time.

The appropriation for 1987 and six months of 1988 was $13,000 as voted at the Annual Town Meeting, a balance of $7,939.89 forwarded for the first six months of 1988.

Library Director

The effort, work and dedicaton of the full-time and part-time project staff were realized on March 23, 1987 when the Memorial Library went "on-line" with the Merrimack Valley Library Consortimum. The library joined this automated network, now consisting of twenty-two cities and towns in 1985. Christina Stewart and Christine Dehoff served as project supervisors, and Susan Bruno, Diane DeFrancesco, Phyllis Tumsaroch and Dorothy Wiberg did most of the data entry work.

The regular and part-time staff have been asked for their comments on the first nine months on "being on-line", and their remarks follow:

David Rush, Head of Reference and Adult Services, comments, "Electronic access to holdings has vastly improved our ability to locate short as well as complete titles, lists of authors, and a display of immediate circulation status and number of available copies throughout the MVLC network.... Computerization is a continuing challenge to staff to develop skills that save clerical time and expand service."

Christina Stewart, a member of the part-time Reference staff, writes, "From a Reference Librarian's point of view, being on line is a valuable and exciting new technology...the collections of other libraries are literally at our fingertips. It is very satisfying to be able to tell a patron in a matter of minutes the location of a book he wants and whether it is available."

Christine Dehoff, also a member of the part-time Reference staff, says "In reference, more people are asking what specific libraries have items that we don't own. In technical services, the computers have allowed us to catch up on a backlog of work in a timely manner...."

Sarah Rueter, Head of Children's Services, writes, "It has been a year of exhilaration (computer up) and a year of frustration (computer down) as staff and public became acquainted with the marvels and mechanics of going on line."

Susan MacDonald, Assistant Children's Librarian, comments, "The end of paper files of patrons and loan transactions...faster between library borrowing."

Doris Carbone, of the Technical Services staff, writes, "The public is more aware of their responsibilities regarding the borrowing of library material, i.e. due dates, fines and lost books. The staff is better able to effectively locate any of our material at any one time."

Lucy Percuoco, also on the Technical Services staff, comments, "The first year on-line has been, in my opinion, very successful. The fact that it is easier to locate whether or not a book is checked-out to a patron or is on-shelf is quite convenient. Reserves on titles and the expedition of notices are very efficient. One of the main features of the computer is the availability of books, which in the past were not accessible to Wilmington residents, has now been remedied through our ILL system and system-wide holds."

"In the Technical Services aspect it is very simple to track down a problem, to withdraw books and to add replacement copies to our collection."

"All in all, the transition has been quite easy and has helped us serve the public with ease and efficiency."

Dorothy Wiberg, a part-time Library Assistant, says, "I think the most important service the new system provides is being able to inform our patrons if, 1) we own the book, and 2) where it is..."

Carolyn Ryan, another part-time Library Assistant, says, "Being on-line gives the patron faster service and more information through inter-library loan."

Barbara White, Circulation Librarian, writes, "Our first year on-line, I would say, was very successful. The public as a whole was very understanding and realized it was new to us as well as themselves. There were very few complaints."

"The computer system in this library has been a great asset to the Town of Wilminton. Service is faster due to a better control of our holdings and a greater availability of material from other libraries. Also, this year on-line, I believe, has proven to us and to the public that there is more accuracy in controlling our collection and servicing the public."

"After working with the public for fifteen years, I believe that this has been one of the most pleasant due to the computer and its many services that are there to benefit all who want to take advantage of them."

The Library Director agrees with Joanne DeLuca, a young adult on the library's part-time staff, when she writes, "In my opinion, our first year on-line went well considering everyone was not a pro at the computer. Overall, being on-line has allowed the library to service the public with a wider range of materials and with more speed."

Goals were realized in 1987. Access to the holding of the network will continue to expand in 1988 with the installation of public access terminals. Due to entire staff efforts the promise of March, 1987 became a reality. The promise of 1988 rests on that foundation.

Conservation Commission

Through the past 24 years, the Wilminton Conservation Commission has been actively promoting the preservation of environmental quality and protection of valuable natural resources. During this time, state laws, rules and regulations and regulatory policies have undergone many changes. On November 1, 1987, new Wetland Protection Act Regulations took effect which serve to more strictly protect wetlands within our Commonwealth.

In addition to wetlands protection, the Commission has endeavoed to undertake the planning necessary to preserve open space and passive recreation areas within the Community. In August, 1987, the Commission completed a new Open Space and Recreation Plan for Wilmington. This document will enable the Town to pursue State grant monies for partial funding of land acquisitions. Additionally, the plan is meant to help direct activities associated with water resources, historic and cultural heritage, recreational opportunities, land management and education for five years.

The seven member Conservation Commission meets twice monthly, on the first and third Wednesday, in Town Hall. Meetings are posted with the Town Clerk and are open to everyone. The Commission Office is in room 6 at the Town Hall, is open five days a week from 8:30 a.m. until 4:30 p.m., and is staffed by a full-time administrator and part-time clerk.

Currently, the Commission and/or staff, hold membership or participate in the: Massachusetts Association of Conservation Commissions, Conservation Law Foundation, Ipswich River Watershed Association, Massachusetts Audubon Society, Environmental Lobby of Massachusetts, and Massachusetts Society of Municipal Conservation Professionals. Representatives of the Conservation Commission are also active participants on the Local Emergency Planning Committee (LEPC).

Other projects the Commission and staff are involved in include natural resource curriculum development for fourth and fifth graders, public education using local media, coordination with the Town affordable housing consultants and participating in MEPA review processes for large development proposals.

On behalf of the Town, the Conservation Administrator and Commission members gratefully acknowledge a gift of 21,457 square feet of land, in the Tracey Circle Subdivision, donated by Flintlock Realty Trust. Also, appreciated is the gift of time and energy from those who help to support the goals of the Conservation Commission. The Commission thanks Ginny Lemos for her diligent service in producing meeting minutes. Also, appreciation is extended to the other Boards and Departments for many instances of assistance in 1987.

During the coming years, there may be others joining the "team" effort, through their participation with the soon to be formed Open Space Advisory Committee. We continue to encourage everyone in Town to play a role in our efforts by utilizing and enjoying our protected areas.

Council on Aging

The year 1987 was very productive for the Council on Aging under the chairmanship of Lillian Brown. With the Federal government's statistics informing us that by the year 2000, the elder population will be increasing 107% to 12% of school age children. This years council as their predecessors are making plans. Several new social activity programs have been added tnis year to meet the growing needs of Wilmington elder residents.

This year the council saw more and more of our seniors become victims of strokes, heart attacks, diabetes and other serious illnesses. We checked with other councils who had implemented a program of "Preventive Medicine". Our goal, as was theirs, was to find a way of making the seniors aware of dangerous levels of potassium, uric acid, cholesterol and sugar in their systems, which are the major factors leading to a fatal or disabling illness. The DT 60 Centrifuge System was recommended to us. We contacted the company and told them what we wanted it for, they donated their profit to it and sold it for cost. We received a donation from the Town of Wilmington Employees Association and donations from the seniors themselves that paid for the cost of the machine. It was then donated to the Town and is set up in the Office of the Board of Health. It has been an excellent source of preventive medicine to the seniors and to many other residents who have utilized its services.

This year we also added a Ceramic Class to our activity programs and donated Video Game to the game room.

In our Outreach programs to the senior citizens we:

Transported in our minibus to medical and all elderly related travel	7,600
Daily meals were delivered to shut-ins for a total of	12,980
Seniors served at the High School lunch site	5,115
Seniors hours volunteered in Peer Support	9,279
Telephone calls received into the center for assistance	7,781
Special holiday shut-in dinners delivered to frail and disabled by volunteers	302
Therapeutic socials were attended by	2,160
Respite care services hours given to ill seniors	1,040
Newspaper columns written	52
Seniors entered the center for socialization, programs or help	18,291
Applications for Fuel Assistance	159

In meeting the needs of the elders we are very grateful for funding from the tax payers by approving our budget at the Annual Town Meeting, and the following:

Community Teamwork Inc. for paying for fuel, oil burner repairs, replacements and cleanings	$139,750
Minuteman Home Care Corporation for homemakers and chore workers	136,411
Department of Elder Affairs Grant	4,120
Stoneham Visiting Nurse Association therapy and nursing services	11,350
Mystic Valley Mental Health	12,550
Somerville/Cambridge Legal Service	8,500
Carpenters Union Local #41 estimated value of removing unusable windows at the center and replacing them with new energy saving ones, estimated value	15,000

In meeting our goal serving the elder we thank also the following for their help: Town Manager, Buzz Stapczynski for all his help and guidance through the year, Maintenance Department of Public Works, Police Department, Fire Department, Diamond Crystal Salt Company, Yum Yum Shop, The Plate Escape, Employees of Compugraphic and Digital Corporation, Rotary, Kiwanis, Lions and Tewksbury/Wilmington Elks, DECA, students, St. Thomas Church and Lucci Supermarket. To all who helped us in anyway make the lives of the Wilmington elder residents better in 1987, we extend our grateful thanks.

Council For The Arts

This was an exciting and busy year for members of the Arts Council. The advent of the Arts Center in the old Town Hall is a dream come true for these volunteers. Ideas, hopes and plans now have a chance of becoming realities. Monies granted the Arts Council by the Massachusetts Arts Lottery Council have been instrumental in the preparation of the Center and some of its programs. Members are also grateful for a generous donation from the Lions Club. Other have helped by giving furniture, equipment, labor and encouragement.

Although progressing slowly, various programs have been undertaken. The Council sponsored its first class, oil painting. Two semesters of art-oriented classes plus a summer school were offered by the Wilmington Community Schools, Inc. at the Center. The Sweet Adelines and a folk music group practice here. Bus trips to the Museum of Fine Arts and the Gardner Museum originating at the Center were sponsored.

In order to be better prepared to carry on the ever-changing business of the Council, several members attended workshops in Haverhill and Framingham, Massachusetts. These State sponsored workshops are made available through the State Arts Lottery Council as well as the Humanities Appreciation Day held at the State House. 1988 has many more workshops in store for the local Council, sponsored by the State Arts Lottery.

Although the focus this year has been the preparation of the Arts Center building for continuing programs, classes, demonstrations and exhibits, members continued to work hard to distribute wisely and fairly the money allotted the Town by the Massachusetts Arts Lottery, for the purpose of furthering the enjoyment of culture activities in the community. Applications for grants have increased in number making their approval much more selective and difficult. The spring and fall cycles of the allocations were distributed to four Wilminton High School Graduates as scholarships to twelve students attending a Boston Youth Symphony Orchestra summer school and to help Jeffrey Murphy defray cost of a performing tour of Japan with the Greater Boston Youth Symphony Orchestra. Materials to build modular sets by the High School, the purchase of a pass to the Museum of Fine Arts by the Wilmington Public Library and the authoring of a book by Tina Prentiss are other projects funded this year.

Money was also granted through the Performing Arts Students Series (PASS) a fund which enabled several classes to attend performances of "Pinocchio", "Diary of Anne Frank", "Animal Crackers", "Romeo and Juliet" and "Amadeus".

Another successful Art Exhibit and Craft Festival brought enjoyment to many who attended during the July 4th festivities. The John D. Brooks Memorial Award was received by Rita Strow who, ironically entered a portrait of Mr. Brooks. Joanne Gargans' "Freshly Fallen Snow" was voted the Most Popular of the show. The public was invited to an open house of the Arts Center in November to view the progress of the Arts Council and the Center. An exhibit of paintings was advantageously displayed on the newly painted walls of the foyer and ceramics, photographs, jewelry and high school art were shown in other rooms. A program of music and drama was provided by high school students and refreshments served.

Officers of the Wilmington Council for the Arts are: Chairperson, Edith Michelson; Recording Secretary, Evelyn Choate; Treasurer, Anne Buzzell; and Corresponding Secretary/Publicity, Liz White.

Members of the Arts Council gratefully acknowledge the support of the Town Manager, Board of Selectmen and Townspeople in helping to make this a most successful and memorable year.

Metropolitan Area Planning Council

Wilmington is a valued member of the Metropolitan Area Planning Council (MAPC), the regional planning agency for 101 cities and towns in the greater Boston region. The Council provides planning services in the areas of land use, economic development, housing, transportation and environmental quality to Wilmington and other member communities.

In 1987, Wilmington received MAPC assistance with the production of a computer-digitized land-use map for use by local planning officials.

Several other regional projects were produced by the Council for Wilmington and neighboring communities to promote sound planning activities. These projects included several how-to-manuals, such as The Catalog of Techniques for Preserving Housing Affordability, a compilation of methods that towns may consider implementing to preserve affordable housing stock; and The Growth Management Catalog, an easy-to use reference book that describes more than 40 techniques, regulations, programs and services for managing growth.

The Council also compiled and developed the MAPC 1987 Sites Survey Update, which is a complete, current listing of vacant commercial and industrial sites in the MAPC region. The survey is a useful planning tool for anticipating or promoting locations for new development.

Several transportation projects were also completed by MAPC to help Wilmington and other communities address local traffic concerns. MAPC's Pavement Management Forecasting Model software was created to help highway superintendents improve methods for analyzing road reconstruction and maintenance needs in order to more efficiently plan and expend local roadway budgets. MAPC has also assisted the Town in the review of the Route 129/62 Town Center Project, so as to ensure the necessary technical expertise for the community.

Other Council functions include review and comment on projects and programs affecting the region, publications, forums and legislative initiatives to facilitate better planning.

Housing Authority

The Wilmington Housing Authority's efforts to provide additional units of affordable housing in town has become a reality in 1987. The development and construction of the eight scattered sites, single-family houses started in late Spring and were completed in November. These "modular" homes were the first in state housing, and will be used as a model for the State.

First review designs have been completed and presented to the Executive Office of Community Developement in December for the new 32 unit elderly complex. The new elderly housing will have two totally accessible handicap units, and the renovation of the present community hall at Deming Way will also be made handicap accessible as part of the extensive modernization of the office, laundry, kitchen, restrooms and maintenance building. These plans are currently being reviewed and the WHA is hopeful that they will go out to bid in late spring with construction commencing in late summer, 1988.

The Phase II Modernization Program for the 40 units of elderly housing at Deming Way commenced in August with expected completion the end of January. The WHA extends their thanks to the Tenant Coordinator Betty Keough for her time before and during the renovation of these units, which has proven to be a challenge for her as well as the tenants. The construction of the new sewer line and tie into Deming Way has been completed, which will alleviate the chronic septic problems experienced by the WHA in the past.

The WHA board members remained the same as in the previous year, with Chairman Kevin McMillan, Vice-Chairman William Strob, Secretary Warren Newhouse, Treasurer Elaine Hachey and Assistant Treasurer Dan Gillis.

The WHA experienced with regret the resignation of their Executive Director Lilliam Buckley and Administrative Assistant Helen Phillips this past year. We would like to thank them for their efforts and expertise for the smooth and efficient operation of the WHA and wish them well in their new ventures. We extend a welcome to our new Executive Director Ella Belmore and Administrative Assistant Phyllis Tumsaroch.

1987 has proven to be a challenging year and 1988 should be even more so as we move into the construction stages for the 32 unit elderly complex and additional modernization.

Water & Sewer Department

WATER

Bids were received for the Edmund H. Sargent Water Treatement Plant in North Wilmington. The low bid was $4.9 million. Bids for the connecting water mains will be received in 1988. The State will be providing the Town with a grant of approximately $2.8 million. A Ground Breaking Ceremony was held on June 6, 1987. It is expected that the plant will be put into service in early 1989.

An aquifer study was initiated to define the Town's aquifer and the recharge areas around our wells.

Inspections were made on our two existing standpipes. Maintenance work will be needed at the Nassau Avenue tank in 1988.

An engineer was hired to undertake a "Water Master Plan Study". In addition, we authorized the design of a new 3 million gallon storage tank to be located in the Town Forest in North Wilmington.

The granular activated carbon at the Butters Row Water Treatment Plant was replaced at a cost of $41,000.

Water rates were increased on July 1, 1987 to finance the bond payments for the new water treatment plant. This was the first rate increase since 1979. Future rate increases can be expected for future capital expenditures as well as increased operating costs.

New regulations were adopted requiring the submission of a Water Impact Report for any development that exceeds 40,009 gallon per day of water usage. This report will be used to determine the effect the development will have on the Town's water system.

Automatic underground sprinkler irrigation systems were banned for all new construction.

Unpaid water and sewer bills continue to be a problem, averaging $60,000 annually. It was voted to develop a water service "interruption" policy for delinquent users. The proposed policy is being reviewed by Town Counsel.

Commissioner Maurice "Dice" O'Neil passed away on April 19, 1987. In addition to serving on our Board, he was also a long-time employee of the Water Department, before his retirement in 1981. James A. Ring was appointed by the Town Manager to fill his unexpired term.

SEWER

Our updated Sewer Master Plan was completed.

The sewer extension to service the Deming Way Housing Project was put into operation.

Sewer rates were increased, July 1, 1987 in conjunction with the water rate increase.

Our sewer assessment from the Massachusetts Water Resources Authority continues to increase. This year it was $255,872.00

Permanent Building Committee

The Permanent Building Committee met twice a month during the past year with various Town Boards, consultants, architects and Town officials to bring Phase I of the Wilmington High School Renovation and Additions Project to completion.

Phase II of the High School project began with the selection of the architectural firm of Knight, Bagge & Anderson, Inc. of Boston. The scope of work remaining at the High School includes: (1) replacement of windows, (2) additional heating system upgrading, (3) replacement of exterior bleachers and storage area, and (4) repairs and renovations to the auditorium.

Bids for the new aluminum windows at the High School were opened publicly at the Wilmington Town Hall on December 9, 1987. The low bid was $396,700 as submitted by SWS Industries, Inc. of Moonachie, New Jersey. Subsequently, the PBC awarded the contract to SWS Industries with construction to begin immediately at the close of the school year. Funding for the windows will be through a grant from the Massachusettse Executive Office of Energy Resources. The PBC wishes to acknowledge with gratitude the efforts of State Representative James R. Miceli in obtaining this grant for the Town.

Bid documents for the exterior bleachers are being completed by Knight, Bagge & Anderson, Inc. with a target completion date of mid-September, 1988. Preliminary plans for the auditorium repairs and renovations have been completed and an in-depth survey of the High School heating system is underway.

The Permanent Building Committee would like to express its appreciation to Mr. Paul Fleming, the Principal of Wilmington High School, his staff, teachers and most importantly the students for their continued support during this project.

A request for proposals by January 25, 1988 was advertised by the PBC for firms to conduct a feasibility study and site evaluation for the addition and/or renovation to the existing police station and an analysis of the location of the existing fire station and review of a possible new fire sub-station location.

Also, a request for proposals by January 25, 1988 was advertised by the PBC for firms to perform and provide professional design services associated with a feasiblity plan to relocate the Town Hall and expand the Town's recreational facilities and Wildwood Cemetery.

Redevelopment Authority

1987 saw no personnel changes on the Wilmington Redevelopment Authority with incumbent, Vaughn Surprenant, being re-elected by the voters of Wilmington to an additional five-year term. The officers of the Wilmington Redevelopment Authority are as follows: Jay Donovan, Chairman; Carl Backman, Jr., Vice Chairman; C. Nicki Johnson, Secretary; Vaughn Surprenant, Treasurer; and Sidney Kaizer, Assistant Treasurer.

The year 1987 has been a year of accomplishment for the Wilmington Redevelopment Authority. As part of its continuing responsibility concerning construction improvements along the Route 129 corridor, the Authority increased its activities relating to the Massachusetts Department of Public Works bridge construction project at the intersection of Routes 38/129 and 62 at the Wilmington Town Center.

Early in 1987, the Authority was involved in project planning sessions with the Mass. D.P.W. project and to study proposed alternatives to the bridge design and the viability of a revitalization of Wilmington Town Center.

In May and June, the Authority attended meetings with the Mass. D.P.W., Board of Selectmen and others, to work out an agreement with the Mass. D.P.W. to allow the Authority to conduct its work while the project was held in reserve.

In August, the Authority hired Michael N. Matt to serve as Executive Director to coordinate Authority activities and to solicit proposals from consultant engineers and planners for the feasibility study.

September and October were busy with interviewing consulting frims and preparing a contract for the feasibility study. Continued meetings with town and state officials took place during this time to work out the details of the study with all parties.

In November, the Authority entered into a contract with the consulting team of Wallace, Floyd, Associates; Bruce Campbell and Associates and Robert Kenney Development Company to undertake the feasibility study.

During November and December, the consultants began their work and agreed to present to the Authority and the Board of Selectmen, preliminary studies of construction alternatives and Town Center options early in 1988.

1987 has been a year of accomplishment for the Wilmington Redevelopment Authority because it marked the building of a new foundation - a solid footing of study and community participation for the decisions of 1988 concerning the bridge construction project and the revitalization of Wilmington Town Center.

In addition to the work completed on the Town Center Project, the Redevelopment Authority continues to reap the benefits of its investment 20 years ago in the Jewel Industrial Park. At the end of 1987, there were seven businesses operating in Jewel Park employing a total of 712 people. Based upon Fiscal Year 1987 data provided by the Town Assessor's office, the total assessed value of the park was $9,926,100 and the annual tax revenue to the Town of Wilmington totaled $226,910.65.

The Shawsheen Valey Regional Vocational Technical High School District is one of twenty-six regional vocational technical school districts within the Commonwealth of Massachusetts. The principle objective is to provide comprehensive vocational/technical training experiences for approximately fourteen hundred secondary high school students residing in the Towns of Bedford, Billerica, Burlington, Tewksbury and Wilmington. Upon graduation, students acquire both a comprehensive academic high school diploma and certification in their chosen vocational/technical discipline. Therefore, graduates receive two educations during their four years of study enabling them to either directly enter the world of work as experienced technicians and craftsmen, and/or immediately enter college due to their quality academic preparation.

In June of 1987 three hundred and twenty-seven students graduated from Shawsheen Tech, with over ninety-six percent of the graduated either acquiring jobs within their skilled professions or pursuing higher education. These statistics are consistent with the past performances of graduating classes from Shawsheen Tech, which have existed since the school's formation in 1970.

Many activities took place during 1987 which deserve special recognition:

The district was saddened with the retirements of two outstanding individuals who helped establish Shawsheen Tech's reputation of being one of the nation's finest vocational/technical secondary institutions. Mr. Benjamin Wolk, Superintendent/Director since 1970, announced his retirement in late 1986. His dedicaton to serving the needs of youngsters in vocational/technical education spanned four decades, and his service as the leader of Shawsheen Tech began in 1966 as the District's first employee. The 1987 graduating class dedicated its yearbook in honor of Mr. Wolk, and the Shawsheen Valley Technical School Committee established an annual scholarship to be awarded to the top male and female graduates in his name. This dedicated professional educator continues to serve the students and staff of Shawsheen Tech as a member of the school's General Advisory Committee. Mr. Joseph L. Rogers, who represented the Town of Bedford as a member of the Regional School Committee since 1970, announced his decision to end his seventeen years of public service by not seeking re-election in March of 1987. Current and former School Committee members organized an appropriate ceremony in April of 1987, where Mr. Rogers received well-earned thanks and commendations from the School Committee, faculty and students. In March of 1987, Mr. Mark Trifiro of Bedford, a former student in Shawsheen Tech's afternoon program, was elected by Bedford residents to the existing vacancy.

In February of 1987, Mr. Charles Lyons, former Executive Director of the Massachusetts Association of Vocational Administrators, began his service as Superintendent/Director. Mr. Lyons has been in the field of Vocational/Technical Education since 1976, serving as a teacher, fiscal analyst and administrator.

In September of 1987, Mr. Robert Cunningham was appointed Assistant Superintendent/Director and Mr. John McDermott was appointed Assistant Superintendent/Director for Community Services.

There were some significant modifications to the high school's academic program. Since students are required to spend 50% of their time in their vocational/technical program and an equal amount of time in academic and related instruction, these modifications required changes to the master schedule while maintaining the school's practice of providing no study periods during the school day. Changes included the following:

The Science program implemented the recommendations of the New England Association of Schools and Colleges. Freshmen Biology was expanded from five to eight periods per week, the teaching of Chemistry and Physics was transferred from the Math Department to Science Department, and a comprehensive chemistry/physics lab was constructed during the summer of 1987. A new telescope was purchased to assist in the teaching of astronomy, and a new Senior elective course is planned for the fall of 1988. Professional staff was expanded from three full-time and several part-time instructors to six full-time science teachers.

A Health Education Task Force was organized in March of 1987 consisting of parents, teachers, administrators, School Committee members, and the school doctor. The task force assisted in the development of new 9th and 11th grade curriculum in Health Education. A new 9th grade course entitled Decision Making for Better Health ws initiated to help 9th graders clarify their values and attitudes while educating them to health problems that result from risk taking or failure to follow sound decision-making practices. The 11th grade health curriculum added CPR training to the swimming course. Interest in fitness was stimulated by the purchase of a new universal and an aerobic exercise machine.

The Social Studies Department modified the ninth grade social studies curriculum, and the teaching of Civics was expanded to include all students at the 10th grade level. Students participated in the school's annual Student Government Day activities, and two Shawsheen Tech students are elected to serve on the Department of Education's Regional Advisory Council.

The Math Department added Trigonometry, Technical Math 11, Calculus and Geometry as Senior electives, and pre-Algebra was initiated as a new Freshman course offering. The Math and English Departments also initiated planning to examine applicable software for the proposed Apple Computer Basic Skills laboratory expected to be built during the summer of 1988.

The English Department implemented the major revisions of the curriculum modified during the 1986-87 school year. Great care is taken to insure that students are appropriately placed in groups and levels thus insuring that their individual writing, reading and speaking needs are met drawing on teachers' strengths and resources.

The aforementioned changes and enhancements to the academic program insures that all students comply to the school's academic graduation standards and all college entrance requirements. Copies of Shawsheen Tech's Academic Program of Studies are available from the Guidance Department upon request.

Shawsheen Tech continued to offer quality training within the twenty-one vocational/technical career offerings. In May of 1987, students from Shawsheen Tech captured five gold medals in the statewide Vocational Industrial Clubs of America annual competition.

Over 300 local businessmen continue to serve on the twenty-one advisory committees which oversee training in each vocational/technical area. Historically, seventy-two percent of Shawsheen Tech graduates enter jobs within the borders of member towns, with each graduating class earning and contributing over 3 million dollars annually to the local economy.

Entering Freshmen are able to explore twelve of the twenty-one vocational/technical areas during an intensive Freshmen exploratory program which concludes in April of their first year. They then choose the area in which they wish to major for the next 3.25 years of their high school experience. Selections include:

Air Conditioning and Refrigeration
Autobody
Carpentry
Cosmetology
Diesel Mechanics
Electronics
Graphic Arts
Machine Technology
Metal Fabrication
Plumbing
Auto Mechanics
Business Technology
Chemical Laboratory Technician
Culinary Arts and Bakery
Drafting
Electrical
Health Technology
Masonry
Maintenance Mechanics
Technical Illustration and Commercial Art

Upon graduation, there are approximately five job offers for every graduate who fullfills the curriculum requirements. Many community projects were completed by various vocational/technical departments during 1987 including:

The annual house building project coordinated by the Carpentry, Masonry, Electrical and Plumbing departments was completed for the Roy family in Billerica during the spring. Another house building project was initiated for the Wilson family in Bedford in September of 1987. Guidelines for next year's house building project may be obtained from the Director of Vocational Technical Programs on April 1, 1988.

The Masonry Department constructed a concrete field house for the Billerica School Department on the High School field.

Autobody painted a police cruiser and fire car for the Town of Tewksbury and a police cruiser for the Town of Burlington.

A handicap ramp was constructed for the Disabled American Veterans quarters in Billerica, and access to a home for a handicapped youngster was facilitated in Burlington.

Graphic Arts served the printing needs for various public groups from each of the five-member towns.

1987 was a banner year for Shawsheen Tech students in interscholastic athletic competition. Overall, 1987 teams compiled an impressive record of 139 wins, 53 losses and 1 tie. League Championships were generated in Wrestling, Girls Softball, Tennis, Soccer and Cheerleading. In addition, the Hockey Team reached the Division 3 semi-finals of the State's MIAA tournament, and the Baseball Team reached the Division 2 quarter-finals of the State's MIAA tournament. In the fall of 1987, the Cheerleading squad finished second in Division 1 of the state finals, and Girls Volleyball was added to the extensive sports program.

Shawsheen Tech completed one of its most successful summer programs in its history in 1987. In addition to its annual Summer School courses for high school students and a successful Computer Camp for elementary age youngsters, Shawsheen applied for and received from the Commonwealth a grant to assist in the re-training of unemployed adults. This program served the needs of over seventy adults, most of whom were laid off at Avco in Wilmington in June. Over one thousand people benefited from the summer programs offered at Shawsheen Tech.

Shawsheen continues to serve the needs of member towns through its Adult Education program which served over 700 customers. Its facilities were made available to community groups upon request, and its tradition of providing six hours each week of free pool use by each of the five towns continued.

Shawsheen Tech initiated other programs to serve the needs of the unemployed and underemployed. In cooperation with Alpha Industries, an Electronic Assembly Training Program was initiated for twenty adults in late afternoon and early evening hours in November of 1987. This program was funded by Bay State Skills Corporation. Also, in cooperation with the Cambridge Private Industry Council, the District acquired funding for an EKG Technician's Program expected to begin in February of 1988. Residents of the member towns are encouraged to take advantage of the district's expanding job training opportunities by contacting the office of the Assistant Superintendent/Director for Community Services.

The Massachusetts State Legislature, recognizing the significant value of Vocational Technical Education, enacted in late December of 1987 the Vocational Technical Reform Act. This landmark legislation, co-authored by Mr. Charles Lyons, Shawsheen Tech's Superintendent/Director, will increase State Aid to Shawsheen Tech by 527 thousand dollars in fiscal year 1989 to be used to reduce assessments to member towns, and will provide the District approximatedly 500 thousand dollars in needed equipment grants. This legislation sets a new floor for state reimbursement for operational costs equialing thirty-five percent of a previous year's expenditures. The School District, member towns and local town taxpayers were well served by all local legislators.

In March of 1987, the Massachusetts Board of Education officially notified Shawsheen Tech that its anticipated sixty percent reimbursement on repairs conducted in 1986 on its school roof would be forthcoming. The first annual payment is expected during 1988 thereby saving local taxpayers a yearly cost of over 102 thousand dollars.

Members of the Shawsheen Valley Technical High School community are very grateful for the cooperation and support received during 1987 from local boards and officials representing the five-member towns. 1988 promises to be one of the most exciting years ever for the residents of the communities we are privileged to serve.

School Department

WILMINGTON HIGH SCHOOL

There were 257 graduates in the Class of 1987. Sixty-four percent of the class went on to either a two- or four-year college. Harvard, Princeton, Purdue, Holy Cross, Syracuse, Boston College, University of New Hampshire, and Simmons were just a few of the schools which accepted our students for further academic studies.

The top ten students of the Class of 1987 were:

Andrea M. Quinn - Valedictorian
Melissa A. Frey - Salutatorian
Jeffrey D. St.Onge - Essayist
Denise M. MacMullin
Sheila M. McDonald
Richard L. Smith
Dale J. Kelley
David B. King
Linda A. Romanowski
Laura J. Duden

The High School was saddened by the loss of Miss Mary Kennedy. Miss Kennedy's many years of service to the Wilmington Public Schools and her affect upon her students will always be remembered.

This Fall we were proud to be notified that Angela Lin, a member of the Class of 1988, has qualified as a National Merit Semi-Finalist.

READING/LANGUAGE ARTS

The sixth annual Summer Reading Program, which is a cooperative effort between the Wilmington Memorial Library under the supervision of Mrs. Sarah Rueter, and the Wilmington Reading Department, was held. The major objectives of this program were to encourage summer reading and visits to the public library. The theme for the sixth annual Summer Reading Program was "Magical Reading". A kit consisting of a folder for logging in library visits and books read during the summer was given to each child who attended. Mrs. Rueter conducted story hours and other special "magical" activities throughout the summer.

The Volunteer Reading Tutor Program was continued this year. The volunteer reading tutors were as follows:

Lynn Gordon worked at the Shawsheen School in Anne Keeler's Grade 2 classroom.

Diane DeFrancesco worked in Pat Lynch's Grade 1 classroom at the Shawsheen School.

Judy Austin worked all year in Eileen Lemieux's Grade 2 classroom at the Wildwood School.

Ruth Filipowicz worked at the Woburn Street School in Linda Marinel's and Marjorie Whelan's classrooms.

The Chapter I Parner Advisory Council held three general meetings. An informational meeting was held in the Fall. The annual "Make and Take" winter workshop proved again to be a success, and the oral presentations by Chapter I students in the Spring were well attended. The Newspaper Committee published three newsletters which were helpful to parents and also kept parents informed throughout the year. The PAC officers for 1986-1987 were:

Paulette Kalagher	Chairperson
Linda Power	Vice Chairperson
Frances Przyjemski	Secretary
Karen Armata	Comptroller
Marily Hardy	Newsletter Chairperson

Samples of "Students' Writing" was published in the TOWN CRIER on five occasions. Having one's work published in the newspaper, with one's picture, was indeed exciting for the students. We greatly appreciate the space and special interest shown this project by Fred Neilson.

PHYSICAL EDUCATION AND ATHLETICS

The Physical Education Department continued to serve all students (K-12) as well as providing an adaptive program for students with special needs. The program sponsors a physical education "Mile Club" to encourage physical fitness in Grades 5 through 8.

The health program in Grades 7-8, with the cooperation of the Science Department, emphasizes the importance of drug-alcohol education.

The Physical Education Department cited several students for outstanding achievement in physical education:

1987	Kirsten Galvin	Dan D'eon
1988	Lisa LaRocque	Brian Woods
1989	Jill Martyn	Eric Palm
1990	Nicole Zarella	Richard Hersom

Athletic Awards - 1987

The 1987 Girls Field Hockey Team, coached by Jan Cassidy, finished first for the eleventh time in the last seventeen years.

Amy Lavina, '88, was selected the MVC girls field hockey Most Valuable Player and Boston Globe '88 First Team All-Scholastic.

The Boys Basketball Team, coached by Dave Orndorff, won their first ever basketball championship with a 13-7 record.

Mike Lombard was selected the Merrimack Valley Conference boys basketball league Most Valuable Player and Boston Herald First Team All-Scholastic.

Megan Donnelly (Class of '82), a four-time field hockey All-American, was named the 1986 recipient of the 1986 Broderick Award as the outstanding field hockey player in the country. Megan is currently training with the U.S. National Team for the 1988 Olympics.

PERFORMING AND FINE ARTS DEPARTMENT

In August, through funding by parents, the Wilmington Council of the Arts, and largely the School Department, fourteen sixth-grade students were given the opportunity of going to Tanglewood for five days. While staying at a camp nearby, the children attended and participated in programs at Jacob's Pillow Dance Festival, Tanglewood, Norman Rockwell Museum, and Shakesperean Theatre. In poetry and prose, they logged their experiences creatively and humorously. Exhausted but happy, they returned home with stories, souvenirs and memories of new friendships and a greater appreciation of the arts. Mrs. Linda O'Donnell, music specialist at the Shawsheen School, accompanied students to Tanglewood.

Representing Wilmington, Jeff Murphy, a member of the Class of '88, was selected timpanist at the Music Educators National Conference Convention in Baltimore, Maryland. A selected participant in district and state festivals as well, Jeff was nominated to the McDonald's All-American Band. In addition, through the auspices of the School Department, he performed at the Fiesta Bowl in Phoenix, Arizona. A member of the Greater Boston Youth Symphony, he will travel to Japan in April, tour the country, and perform in several concerts.

In November, staff and high school students were proud to assist in the dedication of the new Arts Council Building. A music program and an art exhibit by students and local artists made this a most pleasant and auspicious occasion.

SYSTEMWIDE MILESTONES

Elementary Accreditation: In October of 1987 the Shawsheen, Wildwood and Woburn Street Schools completed the last phase of an eighteen month self-study. A visiting team with members from many new England states visited each school and prepared their reports for the New England Association of Schools and Colleges. We are currently awaiting the final reports of this accreditation visit. We are grateful to Mrs. Martha Mahoney, who served as general chairperson of the self-study and to Miss Florence Kelley and Mr. James Tildsley who chaired the Wildwood and Woburn Street Schools respectively.

Computer Labs: In September of 1987 all three elementary schools and both intermediate schools opened with new computer lab facilities in place. The renovation of spaces at the Shawsheen and West Intermediate Schools was completed on schedule. The School Department is appreciative of the Town Maintenance Department and workers who completed this task expeditiously. Two new computer teachers were added to the program so that all students grades 4-8 would have regular and systematic instruction.

Project DARE: Officer Robert Spencer of the Wilmington Police Department has visited and taught in all fifth-grade classrooms. This program is focused on discouraging student involvement with drugs and alcohol. This national program is implemented by uniformed officers of the police force serving as instructors. We are grateful for the amount of time and energy Officer Spencer has given our students.

Senior Citizens Lunches: The hot lunch for senior citizens was transferred to the new high school cateteria. Approximately one hundred seniors are taking advantage of this new opportunity of choosing their lunches from a variety of entrees. Senior citizens are not only enjoying the new environment but are also becoming involved in the building as students and volunteers.

Inservice Commission: Under the direction of Mr. Cleo Fredette a group of teachers and administrators planned four half days of inservice programming. The offerings were varied and included Project Charlie, Project Adventure, 4MAT, seminars and workshops involving computer software and many keynote speakers including Jack Agati, and Bill Halloran. Topics covered included issues of neglect and abuse and affective teacher/parent communication.

PERSONNEL

Mr. Michael Tikonoff was elected principal of the Wildwood Elementary School. His election followed a very carefull screening process that involved staff, community and members fo the School Committee. Mr. James Jordan was elected principal of the West Intermediate School after serving a period as acting principal. Mrs. Catherine Symonds and Mrs. Anna Simmons were elected department heads as English and Business respectively. Mrs. Florence Athanasia was appointed acting department head for the Guidance Department. Mr. Robert P. Horan and the School Committee created several new positions and departments this past year. They include Project Outreach, designed for early intervention of potential dropouts. This project is coordinated by Mrs. Elaine Levine and Dr. Ellen Cooney. Three new nurses were added to the staff so that each building has its own full-time nurse. Two new computer teachers were added so that all students, grades 4-8, have a regularly scheduled computer program. The Performing and Fine Arts Department has started a strings program. Ward Dilmore, noted composer, was hired to this position.

The School Department noted several significant events during the past year. Mr. Robert Barrett retired after many dedicated years of service to the Wilmington Public Schools as a principal. The School Department was saddened by the passing of Mr. Mitchell Spiris, School Committee member. Mrs. Suzanne Cushing, daughter of Mr. Spiris, was appointed to her father's seat until the next municipal election. The John D. Brooks Science Wing was dedicated in December 1987. A reception was held in December for those School Department employees with thirty or more years of service. These employees are:

Mr. Fred Bellissimo
Mr. George Cogan
Mr. James Gilligan
Miss Lorraine Kalil
Miss Marjorie Marshall
Mrs. Catherine Souza
Miss Mildred Woods
Mr. Roger Breakey
Miss Caroll Folkings
Mr. Alfred Hambelton
Mr. Francis Kelley
Mrs. Dolores Silva
Mrs. Loddy Weisberg

The Wilmington School Community wishes the following teachers who have retired or will be retiring from the Wilmington Public Schools this year many happy and healthful years. They include:

Eva Kanchuga, Home Economics Teacher, North Intermediate
Rosemarie A. Koure, English Teacher, High School
Ruth Mullarky, Elementary Teacher, Wildwood School
Francis P. Nolan, Guidance Counselor, North Intermediate
Margaret Collamore, Elementary Teacher, Wildwood School
Dorothy Nylin, Elementary Art Teacher
Joan Sargent, Elementary Teacher, Woburn Street School

WILMINGTON SCHOOL COMMITTEE 1986

Mr. Anthony Accardi, Jr., Chairman
Mrs. Shirley F. Callan, Vice Chairperson
Dr. Michael J. Thomas, Secretary
Mrs. Bridget T. Zukas, Member
Mr. Robert G. Peterson, Member
Mr. James A. Demos, Member

In conclusion, we would like to take this opportunity to extend our appreciaton to the administrators, teachers, parents, and students who contributed their efforts to the Wilmington Public Schools during the 1987 school year. A special note of thanks to the many town departments that cooperated with the school system in 1987.

Robert P. Horan
Superintendent of Schools

Town Meetings

WARRANT FOR THE ANNUAL TOWN MEETING - APRIL 18, 1987
WITH ACTION TAKEN THEREON

Greetings: In the name of the Commonwealth of Massachusetts and in the manner prescribed in the By-Laws of said Town, you are hereby directed to notify and warn the inhabitants of the Town qualified to vote in Town affairs to meet and assemble at Town Hall Auditorium, (Precincts 1, 2, and 5) and the Wildwood School (Precincts 3, 4, and 6), N.B., Saturday the eighteenth day of April, A.D. 1987 at 9:45 o'clock in the forenoon, the polls to be opened at 10:00 a.m. and shall be closed at 8:00 p.m. for the election of Town Offices:

ARTICLE 1. To bring in your votes on one ballot respectively for the following named offices, to wit: Two Selectmen for the term of three years, One Moderator for the term of one year; Two Members of the School Committee for the term of three years; One Member of the School Committee for the term of two years; One Member of the Wilmington Housing Authority for the term of five years; One Member of the Redevelopment Authority for the term of five years;

You are also hereby further required and directed to notify and warn the said inhabitants of the Town of Wilmington who are qualified to vote on elections and Town affairs therein to assemble subsequently and meet in the Town Meeting at the High School Gymnasium, Church Street, in said Town of Wilmington, on Saturday the Twenty-fifth day of April, A.D. 1987 at 1:30 p.m., then and there to act on the following articles:

In accordance with the above Warrant, the meeting was called to order by the Moderator Michael A. Caira, at 9:55 A.M. at the Glen Road School, and as much of the Warrant as is noted above was read. Upon the motion of Phyllis O'Leary, it was moved and seconded and so voted to dispense with further reading of the Warrant.

All voting machines were opened and the Zero sheets were posted so that the condidates could examine them before the polls were opened. The checkers were prepared with their voting lists and voter identification cards and everything was in readiness at 10:00 A.M.

At 8:00 p.m. the polls were declared closed and the printer packs were removed from the back of the voting machines and one copy was given to the tally clerks, one was posted outside the railing so that each candidate could add up his own totals at once. The Town Clerk read the results of this election at 9:45 p.m.

All the totals from the twenty-five machines plus the absentee ballots were recorded and declaration thereof made, as by law is directed and were for the following:

WARRANT FOR THE SPECIAL TOWN MEETING - SEPTEMBER 28, 1987
WITH ACTION TAKEN THEREON

TO: THE CONSTABLES OF THE TOWN OF WILMINGTON,

GREETINGS: In the name of the Commonwealth of Massachusetts and in the manner prescribed in the By-Laws of said Town, you are hereby directed to notify and warn the Inhabitants of the Town qualified to vote in Town affairs to meet and assemble at the High School Gymnasium, Church Street, on Monday the twenty-eighth day of September, 1987 at 7:30 p.m., then and there to act on the following articles:

ARTICLE 1: To see if the Town will vote to authorize the Selectmen to sell and convey to James A. Newhouse a certain parcel of Town-owned land shown as Part of Parcel 66 on Assessors Map 67 bounded and described as follows:

Southerly by Fay Street, thirty (30) feet; Westerly by Lot 567, one hundred (100) feet; Northerly by Lot 336, thirty (30) feet; Easterly by Lot 569, one hundred (100) feet.

Said parcel being identified as Lot 568 on a plan of land entitled "Silver Lake Gardens" which plan is recorded in Middlesex North District Registry of Deeds, in Book of Plans 52, Plan 4. Said parcel contains 3,000 square feet, more or less and comprises the westerly portion of parcel 66, Assessors Map 67; subject to such terms and conditions as the Selectmen may determine, and further to set the minimum amount to be paid for such conveyance; or do anything in relation thereto.

Hereof fail not and make due return of this Warrant, or a certified copy thereof with your doings thereon to the Town Clerk as soon as may be and before said meeting, GIVEN OUR HANDS AND SEAL OF SAID TOWN THIS 31st day of August, A.D., One Thousand Nine Hundred and Eighty-seven.

Robert J. Cain, Chm.
Daniel H. Ballou, Jr.
Robert L. Doucette
Michael V. McCoy
James C.Stewart
Board of Selectment

At 7:53 P.M. the Moderator declared the meeting open with approximately 260 voters present, He opened with the Pledge of Allegiance to the Flag, after which The moderator started to read the above warrant and was interrupted by Selectman Robert Cain, "I move that the Moderator dispense with further reading of the Warrant and take up and make reference to each article by number." was seconded and so voted

Motion by Joseph Courtney, Attorney for James Newhouse, "I move that the Town vote to sell and convey to James Newhouse," the motion being the same as the main motion with the amount of $17,500. from the Assessor entered as the purchase fee. Motion was seconded. The Finance Committee recommended approval and Planning Board made no recommendation. After much discussion and explaination of how this land was mixed up over the years, and taxes had been paid by people who actually did not own it, a motion was made by Rocco DePasquale, to change the cost from $17,500 to $8,500. This amendment was seconded and so voted. The main motion as amendended was then so voted for $8,500.

The above meeting adjourned at 8:22 P.M. and the Moderator opened the first Special Town Meeting immediately.

TO: THE CONSTABLES OF THE TOWN OF WILMINGTON,

GREETINGS: In the name of the Commonwealth of Massachusetts and in the manner prescribed in the By-Laws of said Town, you are hereby directed to notify and warn the Inhabitants of the Town qualified to vote in Town affairs to meet and assemble at the High School Gymnasium, Church Street, on Monday the twenty-eighth day of September, 1987 at 7:30 p.m., then and there to act on the following articles:

The following meeting was opened at 8:23 P.M. by the Moderator, who started reading the warrant and was interrupted by Selectmen Cain "I move that the Moderator dispense with further reading of the warrant and take up and make reference to each article by number." Motion was seconded and so voted.

ARTICLE 1: To see if the Town will vote to raise and appropriate by taxation or transfer from additional funds a sum or sums of money for the operation of various Town departments and expenses; or do anything in relation thereto. Finance Committee recommends approval

Motion 1-A, Robert Cain, "I move that the sum of $50,000 be appropriated for the purpose of hiring a housing consultant to provide technical assistance to the Town; to be raised by transfer of $50,000 from the Blue Cross/Blue Shield & Group Life account with a balance of zero to be raised by taxation. Motion seconded. Finance Committee recommends approval, it was unanimously so voted.

Motion 1-B, Reginald Stapczynski, "I move that the sum of $6,000 be appropriated for the purchase and maintenance of a burster/decollator for the use of various town departments; to be raised by transfer from the Blue Cross/Blue Shield & Group Life account with a balance of zero to be raised by taxation. Finance Committee recommends approval Motion seconded and unanimously so voted

ARTICLE 2: (Drawn #3) To see if the Town will vote to raise and appropriate by taxation or transfer from additional funds a sum or sums of money for the purpose of paying unpaid bills of previous years; or do anything in relation thereto. Finance Committee recommends approval.

Motion by Reginald Stapczynski, "I move that the sum of $67,259 be appropriated for D.P.W. - Rubbish Collection and Disposal to pay a prior year unpaid bill; to be raised by transfer of $67,259 from the Blue Cross/Blue Shield & Group Life account with a balance of zero to be raised by taxation." Motion seconded and the Moderator explained that this needed a 2/3rds vote and a voice vote would be first taken and needed a unanimous vote to pass. Motion passed unanimously. So voted

ARTICLE 3: (last drawn as #8) To see if the Town will vote to amend Article 21 of the 1985 Annual Town Meeting (Jacobs Street Sewer Betterment) to increase the amount appropriated and transferred therein from $17,000.00 to $60,000.00; to determine whether said funds shall be raised by taxation, transfer from available funds, or by borrowing under the provisions of Chapter 44, or by any combination thereof; and to authorize the Board of Water & Sewer Commissioners and/or the Board of Selectmen to apply for any Federal and State Aid which may be available as contributions to be applied toward the cost of the project, or do anything in relation thereto. Finance Committee recommends approval

Motion by Arthur Smith, Water & Sewer Commissioner, "I move that the Town vote to amend Article 21 of the 1985 Annual Town Meeting (Jacobs Street Sewer Betterment) to increase the appropriation from $17,000. to $60,000.; said sum to be raised by borrowing in accordance with the Betterment Act under the provisions of Chapter 44, all other matters contained in said Article 21 other than the amount to remain in full force and effect." Motion was seconded. Their was much discussion to amend the amount, to have the town absorb the amount of the $43,000 difference. The Town Counsel, Alan Altman and the Moderator did not think this was possible because of the legislation governing the provision of the Betterment Act. After almost an hour of discussion a motion was made to move the article. Motion was seconded and so voted. Mr. Smith, "Enough has been said already." and refused his time for summation and it was then so voted unanimously.

ARTICLE 4: (drawn as #5) To see if the Town will vote to amend Section 6.3.2.1 of the Zoning By-Law of the Town of Wilmington by deleting in its entirety and substituting therefore the following:

"All signs not located on the same premises as the advertised activity are prohibited as well as signs on utility poles, trees or fences and all billboards; except an off-premises identification or directional sign designating the presence or location of a recognized religious sect or denomination and except an off-premises directional sign designating the route to a specific recognized industrial center not on the street to which the sign is located may be erected and maintained within the public right-of-way at any intersection or on private property by special permit from the Board of Appeals. Such special permit shall be granted only upon the determination that such sign will promote the public interest, will not endanger the public safety, and will be of such size, location and design as will not be detrimental to the neighborhood. All such directional signs shall be unlighted and each shall be not over five square feet in area.";

or do anything in relation thereto

Motion by Carole Hamilton, Chairman of the Planning Board, read this motion and it was seconded. Finance Committee recommends approval and Planning Board recommends approval. Carolyn Santorsola of the Chamber of Commerce explained the need for this and that they would be sponsoring this in conjuction with the safety officer of the Police to direct truck traffic directly to the Industrial parks and commercial areas. A voice vote was taken and it was vote unanimously. So voted .

ARTICLE 5: (drawn as #1) To see if the Town will vote to amend the Zoning By-Law and Zoning Map of the Town of Wilmington by voting to rezone from Residence 60 (R-60) Zoning District to Residence 20 (R-20) District, the following two described parcels of land:

Motion by Joseph Courtney was the same as the main motion and was seconded Finance Committee recommends approval and Planning Board recommends approval Mr. Courtney mentioned the Sludge proposal for this land and the intentions of the proponent to start building immediately. Because of a 2/3s requirement being necessary a standing vote was taken. Yes 286 NO 3 All done in 10 minutes.

The Moderator read an announcement about the hearing for September 30, 1987 at 7:30 P.M. at the Town Hall for a "Residuals Management Facilities Planning Community Briefing .

ARTICLE 6: (drawn as #4) To see if the Town will vote to amend the Zoning By-Law and Zoning Map of the Town of Wilmington by voting to rezone from Residential 60 (R-60) to Residential 10 (R-10) a parcel of land bound and described as follows:

Beginning at the most Southwesterly lot corner of the hereinafter described premises, said point being on the Northerly sideline of Hopkins Street and at the Southeasterly lot corner of land of John W. Bissell, the land is bounded as follows; Westerly for 291.92 feet by land of said Bissell; Northerly for 88.50 feet by land of Paul A. Nicoli, Jr.; Westerly for 701.99 feet by land of aforementioned Nicoli; Southerly for 58.85 feet by land of said Nicoli; Westerly for 200.00 feet by land of Charles R. Fiore; Northwesterly for 740.85 feet by other land of Chisholm; Easterly for 200.00 feet by land of Josephine M. Fairbrother; Northerly for 288.98 feet by land of said Fairbrother; Easterly for 409.00 feet by land of the Town of Wilmington; Southerly for 354.11 feet by land of Harry E. King and land of Charles Colachio; Easterly for 518.27 feet by land of aforementioned Colachio; Southeasterly for 158.39 feet by land of Donald F. Corson and; Southerly for 774.92 feet by the Northerly sideline of Hopkins Street to the point of beginning.

Said parcel of land containing 24.32 acres and being the southerly portion of Parcel 61 and Parcel 60A on the Town of Wilmington Assessors' Map 11, and also as shown as being Lots A, D and part of B on a plan entitled: "Plan of Land situated in Wilmington, Mass. surveyed for Leonard A. Chisholm, Scale 1" = 100', Lots A-B-C surveyed by Davis & Abott 1935, Lot D surveyed by Alden N. Eames, 1959"; or do anything in relation thereto.

Motion was made by Lester Chisholm, read the same as above and motion seconded. Finance Committee recommends approval and Planning Board recommends disapproval as written. Upon Planning Boards recommendation Selectman Cain, "I move to see if the town will vote to amend Article 6 to read that the Zoning by-law and Zoning map of the Town of Wilmington by voting to rezone from Residential 60 (R60) to Residential 20 (R20)." Motion seconded. Mr. Chisholm had submitted a letter to the Planning Board stating that he would give 25% of the buildable lots to the town for low income houseing if approved R-10. He now stated that he would have to start from square one and redo his entire layout and could not promise this if Rezoned to R-20. The statement was noted. As for his access road to the back property (Shawsheen River Estates) this too would have to be reconsidered and taken up with the Planning Board. The motion to change to R-20 was unanimously voted. The main motion as amended was then voted. A 2/3rds vote is required. 209 Yes 57 No Motion so voted .

ARTICLE 7: (drawn as #2) To see if the Town will vote to amend the Zoning By-Law and Zoning Map of the Town of Wilmington by voting to rezone from R-20 and R-60 to General Business the following described parcels of land:

Northwesterly by land of the Town of Wilmington, distance of 1,190 feet more or less; Westerly by land of the Town of Wilmington and the sideline of Maple Meadow Brook, a distance of 1,400 feet more or less; Southeasterly by land of Kevin Berrigen et ux, a distance of 585 feet more or less, and; Easterly by the Westerly sideline of Main Street, a distance of 1,517 feet more or less.

Said parcel of land contains 28.5 acres more or less and being more particularly described as land shown of the Town of Wilmington Assessor's Maps as Parcels 11,12 and 13 on Map 25 and Parcels 2,3,4,5,6,7A,7B,7C,7D and 8 on Map 26.

Said land is owned by the following persons:

or do anything in relation thereto. Finance Committee recommends approval. Planning Board recommends disapproval as written. Motion by Stephen A. McInnis, read the same as main motion as in the main article. Motion was seconded. After some explanation, Mr. McInnis read a second motion amending the first to read from R-20 and R-60 to Neighborhood Business (NB), this motion got Planning Board approval and was seconded. The amendment was so voted by voice vote. Most of the neighborhood was in attendance and in favor of this article, however, many town residents were not in favor. The main motion as amended was then taken by a standing vote with a 2/3rds required. Motion lost. 165 Yes 124 No

ARTICLE 8: (drawn as #7) To see if the Town of Wilmington will vote to rezone from R-20 Residential Zone District to G. B. General Business Zone District the following described parcel of land located at 362 Middlesex Avenue, Wilmington meaning and intending to rezone the portion of that land which is currently zoned R-20 Residential Zone District to G. B. General Business Zone District being a part of Lot 1, Block A on a plan entitled "Wilmington Acres", dated December, 1946, Merrill A. Brown, C.E., recorded with Middlesex North District Deeds, Plan Book 70, Plan 58, which land to be rezoned is bounded and described as follows:

beginning at a point on the westerly sideline of the MTA, or formerly B & M right of way at a distance of 210.80 feet northerly from the sideline of Middlesex Avenue, thence; north 19-39-38W distant 245.49 feet to a point, thence; south 25-40-22W distant 436.12 feet to a point, thence; south 64-19-38E distant 100.17 feet to a point, thence; by a curve to the right, radius 554.15 distant 276.72 feet to the point of beginning.

Being a portion of the premises shown as parcel number 6A on the Town of Wilmington Asessors' Map 89. Said land to be rezoned containing approximately 1.1 acres; or do anything in relation thereto. Motion by Joseph Courtney. Mr. Courtney started reading the motion, and as the motion was the same as the main article the Moderator asked that he dispense with the reading of same. Motion was seconded. Finance Committee recommends approval. Planning Board recommends approval. After a few inquiries from abutters a standing vote was taken and was YES 150 NO 8 Motion so voted.

After the completion of all articles the Moderator thanked all for their patience and asked for a motion to adjourn. At 11:50 P.M. the motion was made and seconded and unanimously so voted.

The meeting had three hundred fifty-five (355) voters attending with nine (9) Non-voting guests.

TOWN OF WILMINGTON, MASSACHUSETTS

NOTES TO FINANCIAL STATEMENTS

June 30, 1987

1. Summary of Significant Accounting Policies

The accounting policies for financial reporting purposes of the Town of Wilmington conform to generally accepted accounting principles for local governmental units except as indicated in Note 2. The following is a summary of the significant accounting policies:

A. Fund Accounting

The town reports its financial activities in several funds and one account group in order to comply with the limitations and restrictions placed on both the resources made available to the town and the services provided. The various funds are grouped in the financial statements in this report into five generic fund types and two broad fund categories as follows:

GOVERNMENTAL FUNDS

General Fund - The general fund is the general operating fund of the town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund - General Revenue Sharing - This special revenue fund is used to account for the proceeds of the State and Local Fiscal Assistance Act and their expenditures as prescribed by the Office of Revenue Sharing.

Special Revenue Funds - Others - This special revenue fund is used to account for the proceeds of specific revenue resources (other than general revenue sharing, expendable trust or major capital projects) that are legally restricted to expenditures for specific purposes.

Capital Projects Fund - This fund is used to account for the purchase or construction of major capital facilities.

FIDUCIARY FUNDS

Trust and Agency Funds - Trust and agency funds are used to account for assets by the town in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. These include expendable trust, non-expendable trust and agency funds. Non-expendable trust funds are accounted for in a manner that permits the periodic measurement of revenues earned, expenses incurred and/or net income in order to demonstrate maintenance of capital. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

ACCOUNT GROUP

Long-Term Debt and Liabilities - Long-term liabilities expected to be financed from governmental funds are accumulated in the general long-term debt group of accounts. This account group is not a fund. It is only concerned with the measurement of financial position and, therefore, is not involved with a measurement of the results from any operations.

B. Basis of Accounting

The accompanying financial statements have been prepared principally on the modified accrual basis of accounting. This method recognizes revenues when they become measurable and available. Expenses are recognized under this method as they are incurred.

Revenue Recognition - Property tax revenues are recognized when they become available. Available means then due or past due and receivable within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.

All other revenues are recognized throughout the year when cash is received. Receipts during the sixty days immediately following the close of the fiscal year are also recognized as available revenue.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the town, therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria is met.

Expenses - Expenditures are recorded during the year on a cash disbursement basis. In addition, as required by Massachusetts General Laws, disbursements made during the fifteen days immediately following the close of each fiscal year and which pertain to the prior year are recorded as warrants payable and expenses as of June 30th.

Purchase orders outstanding at June 30th related to annual operating expenses are recorded as encumbrances and, accordingly, as a reservation of fund balances at that date.

Deferred Revenue - Property taxes and other revenues that are measurable but not available have been classified as deferred revenue on June 30, 1986.

2. Departures from Generally Accepted Accounting Principles

For years prior to 1985, the town presented its financial statements on the basis of accounting practices prescribed by the Commonwealth of Massachusetts, Department of Revenue. These practices differed in many significant respects from G.A.A.P.

During 1981. the Commonwealth of Massachusetts issued a revised uniform municipal accounting system entitled "U.M.A.S." The departures from G.A.A.P. under this revised system have been significantly narrowed. The town has adopted a modified U.M.A.S. for its financial statement presentation for 1985.

The significant departures from G.A.A.P. included in the Town of Wilmington's financial statements are:

a. Retirement benefits are provided for on a "pay-as-you-go" basis rather than an acceptable acturarial cost methods (see note 5).

b. General fixed asset acquisitions are recorded as expenditures at the time purchases are made rather than being capitalized in a general fixed asset group of accounts.

c. Purchases for materials and supplies inventories are recorded as expenditures rather than assets at the time of purchase.
